

RAFAELA DE SOUZA

OPERATIONS COORDINATOR | DATA & PROCESS IMPROVEMENT | WORKFLOW AUTOMATION

Los Angeles, CA | (312) 318-1822 | rafaelatamires@outlook.com

PROFESSIONAL SUMMARY

Operations coordinator with experience improving administrative workflows, data accuracy, and cross-functional follow-through in healthcare, education, and public projects. Reduced processing errors 32% through Excel tracking and standardized procedures; reduced rework 30% by redesigning request templates. Skilled in Excel, Oracle ERP, Power Automate, document control, and process mapping. Interested in applying AI tools to documented, measurable operations workflows.

CORE SKILLS

Operations coordination • Process improvement • Workflow documentation • Data validation • Project tracking • Contract administration • Reporting • Vendor and stakeholder coordination • Confidential records • Excel • Oracle ERP • Power Automate • SharePoint • DocuSign

PROFESSIONAL EXPERIENCE

Academic Administrative Support | Los Angeles Pierce College, Los Angeles, CA | 2024–2025

- Kept a 30-computer academic lab ready for scheduled use by checking workstation and software readiness, logging issues, and coordinating follow-up.
- Reduced recurring support requests 25% by identifying common problems and documenting standard procedures for student requests and data transactions.
- Improved visibility into equipment loans and usage by tracking assignments, returns, attendance, and activity in standardized Excel records and faculty reports.

Administrative & Operations Coordinator | Grupo São Francisco Saúde, Brazil | 2018–2019

- Reduced rework 30% by standardizing service-request templates and approval inputs for recurring administrative workflows.
- Supported accurate contract updates for 3,000+ medical providers by checking changes in Oracle against ANS guidelines and resolving discrepancies before finalization.
- Improved provider-data quality by comparing Excel records with XLOOKUP, IF/IFERROR, and conditional formatting before publication.
- Maintained signed agreements and controlled records access through DocuSign in accordance with confidentiality procedures.

Administrative & Operations Specialist | Grupo São Francisco Saúde, Brazil | 2016–2018

- Kept recurring operations on schedule by prioritizing cross-team requests, tracking pending actions, and following up on deadlines.
- Gave teams clearer operational status by consolidating department updates into reports and standardized tracking tools.
- Supported internal audit readiness by checking file completeness and organizing documentation against established procedures.

Data & Operations Analyst | Santa Casa de Tambaú, Brazil | 2014–2016

- Reduced processing errors 32% by building Excel tracking tools and standardizing discrepancy checks for high-volume records.
- Processed and reviewed up to 7,000 service invoices monthly in ERP systems, verifying transaction details and supporting documentation.
- Resolved record discrepancies by comparing financial and customer data, coordinating corrections with relevant teams, and documenting issues.

Administrative Assistant to Finance Director | Santa Casa de Tambaú, Brazil | 2012–2014

- Improved visibility into departmental priorities by organizing finance records, maintaining request and deadline logs, and preparing summaries for leadership review.

ADDITIONAL PROJECT EXPERIENCE

Project Administrative Intern | Prefeitura Municipal de Tambaú, Brazil | 2016–2017 · concurrent

- Supported engineers and architects on four public projects by tracking schedules, milestones, material requests, and project documentation in Excel.
- Reviewed quantities, pricing, and supporting files before purchase or approval, helping teams identify discrepancies early.
